Chris — just let us know when you think this is good to go to OAR (or we can send down first thing in the AM for Bill to read as well). I talked to Josh and he said that they were not expecting any backgrounders for any of the mtgs with autos this week (Chrysler and Tesla are now coming in later this week as well), but they will defer to us if we feel that there's anything that we would like to send to Bill for any of the meetings.

For Chris's review. This is a slight update to the background pager we had shared with AA for the January 23 Toyota meeting.

Note that Bill Charmley has a call in to Tom Stricker, so might have more details to add later this afternoon.
